

Consulate of the United States

Lisbon 28 June 1834

Sir

On the 16 December last I have the Honor  
to receive the Chief of the Treasury Circular of  
31 Aug<sup>r</sup> last. I embrace the first opportunity  
to send you with the information required  
and the specimens of the current Coin of this  
Kingdom viz

One piece of Gold, nominal value 7500 and 7680	
One piece of Do — " — " 3750 — 7345	
One piece of Silver, value and date — 480	
One piece of Do — " — " — " 240	
One piece of Do — " — " — " 120	
One piece of Do — " — " — " 100 - not paid	
One piece of Do — " — " — " 60	
One piece of Do — " — " — " 50	
One piece of Copper — " — " — " 40	
One piece of — " — " — " 10	
One piece of — " — " — " 5	
One piece of — " — " — " 3	
Together make	128 628
Less of 28 <sup>th</sup> promissory of 148683 is 2	153
Amount	148 583

H. B. Tamm

H. B. Tamm

Chief of the Treasury

on the present value of 14 <sup>65</sup>/<sub>100</sub> Spanish Dollar  
for which I have given an order in favor of  
Thos. J. Hutchinson Esq of Philadelphia to receive  
the same I have introduced these notes to the  
Master of the Schooner Empress of Baltimore  
to be delivered to the Collector of said Port  
Till the year of 1797 the currency of Europe  
was composed of Gold Silver and Copper without  
any paper but in that year the Government  
issued in large sums in notes from 1200.00  
to 20000.00 each having interest of 5 per cent  
and made it a legal tender in all trans-  
actions to pay on half in metal and the  
other half in the above paper.

The interest on the above notes was paid  
for a few years but afterwards ceased, in conse-  
quence of which the paper notes became  
year after year more depreciated, till they  
lost 85 per Cent since which time they have  
been fluctuating from the above 12 to  
12 per Cent and are now at 28 per Cent.

The currency of this the Country is con-  
tinually fluctuating very in comparison  
with the metal Coin above.

The Silver coin has not been altered and  
consists of the following pieces

issued only 1793. I suppose the English  
Coinage by this means must be half  
1880.00 of present parity, therefore the value  
of the Kingdom's Gold Coin at present  
may be said to be equal to the English  
The Copper Coin is at an advance of  
1 per cent against Silver. The Spanish Silver  
fluctuates in this market and has  
sold for the last few years at 880.00 930  
metal each. It became a legal tender  
at 940 metal on the establishment  
of Donna Maria's Government here in  
July last in consequence of which  
large quantities found their way into the  
Country the same was washed in the  
last they immediately fell to 860 metal  
each and have sold at about that rate  
since but as their intrinsic value is  
equal to 908 this Metal each they will  
no doubt soon advance to that rate  
being the Spanish or American  
Dollar at 880 and metal each their  
present value and the 1/2 per cent paper  
money at 28 per cent the cost or value of  
a Dollar in currency of the Kingdom

is just 1000 This over Miles with  
a Miles is valued in the Custom  
House of the United States at 124 Cents

I have the Honor to be with  
Great respect Sir

Your M<sup>o</sup> Serv<sup>t</sup>

J<sup>p</sup> Hutchinson

Can. V.

The half Boston agent to	5000
" Three sections " " " "	60
" Section " " " "	100
" Six sections " " " "	120
" Twelve sections " " " "	240
" Fourteen " " " "	480

The Gold Coin before the year 1821 was 5000 of

The Congress ————— 4000

New Congress ————— 480

Eight sections ————— 800

Quarter of a million ————— 1200

Section sections ————— 1600

Half million ————— 2400

Half of a franc ————— 3200

The franc or 8 dollars ————— 8000

Some of the above now exist except the  
two last ones, but bearing a different value  
viz the half franc is 37000 and the whole  
one 75000. In 1821 all the small ones  
were called in melted down and from  
which given the francs of 3750 and 7500 were  
issued.

At the same date the value of the Gold  
Coin was to the Gold coin as 15.233 to 1  
but afterwards the Government announced it  
as 15.625 but notwithstanding which the gold

40\$ Silver

20\$ Copper

This comprises Currency. I recommend

The mean weight of the New Crown  
of 480<sup>th</sup> in Silver is 221 Troy grains to  
232 and its Specific Gravity is 10.57 when  
I now found the Spanish Dollar to  
weigh 10.247 being an evident proof  
that the Silver coined in Portugal  
is equal or has less alloy than the  
Spanish Dollar.

The mean weight of several thousand  
Gold pieces was 221.2 Troy grains, and  
those coined in 1822 gave the specific  
gravity of 19.345, but those before that

Sam. Moore Esq.  
Chief Director.

W. L. Mint.  
Sir.

We are in receipt  
of your favor of the 11<sup>th</sup> inst.

We find that the last parcel sent you  
is not included in the account. and we are  
uncertain whether bill of lard has been sent. At  
foot you have account of lard.

We have made out our bill and forward  
to Messrs W. & L. Dolivering & Co with draft in their  
favor.

Your remarks in reference to the packing,  
uniformity in weight &c shall have our  
attention. The 5 tons ordered we shall  
probably send in a short time.

Very Respectfully

Yours res. etc

Sir

I had the honor to accept you on the  
17<sup>th</sup> of December last, a copy of which letter, is  
enclosed herewith, in reply to a circular  
from your Department dated 21 August 1833.

I beg now to refer you to the specimens  
of Silver coin, current in this Island, which  
I have made up apart from this letter, and  
forwarded according to your instructions by the  
Brig Fair Barbadoine to Alexandria, intending  
to send duplicate specimens by the next dispatch  
opportunity.

I remain Sir

Yours Very Obedt Servt.  
Hosely

Hon<sup>ble</sup> W. L. Duane  
Secretary of the Treasury  
Washington.

Director of the Mint

Dear Sir.

San Antonio Jan<sup>y</sup> 4<sup>th</sup> 1884

We have been expecting  
daily to hear from you in reference to the specimens  
sent to the Mint some time ago.

As we are now making them pretty freely,  
you will excuse our calling your attention to the  
subject, and we shall feel much obliged  
by hearing from you as early as convenient.

With much respect,

Yours Obediently

Crocker Brothers & Co

Treasury Department  
Register Office Feb 12 1834

Sir,

I have been required to prepare a Statement of the amount of gold, silver & copper coined at the Mint from its establishment to the end of the last year, under the heads, 1. Gold, showing the number of eagles, half eagles & quarter eagles, the value of each description of coin, and the total value of gold coined - 2. the amount of silver coined, with the same detail, as to pieces &c and, also of copper with the same detail.

In consequence of the loss, by the late fire, of some of the annual reports of the Mint, exhibiting these details, I found it impracticable to compile these statements without an application to your Department. Should your records enable you to prepare them, I will thank you to have them made out and transmitted to this Office, as early as convenient.

It pleases also to give me the amount of trade in gold and silver coined in 1833 and the same in copper in 1832 and 1833.

I am, very respectfully,  
Your Obedt. Servant  
J. Smith Register

Samuel Moore Esqr  
Director of the Mint

J. I. Smith Esqr  
Register

UNITED STATES CONSULATE  
FOR THE AZORES.

May 6<sup>th</sup> February 1834.

To the Hon<sup>ble</sup> R. B. Taney  
Secretary of the Treasury of the United States  
Washington  
Sir,

On the 20<sup>th</sup> ultimo I had  
the honor to receive the circular addressed by your  
Department to the Consuls of the United States  
under date thirty first of August: and in conformity  
thereto, I now forward Duplicates of the National  
Silver coin current in these Islands as it is not  
a Provincial coin. Your Department is no doubt  
furnished with similar from Portugal, this coin  
passes here for Six hundred R<sup>es</sup>, or Sixty cents, when  
the Government of Don. Maria II was established  
at Lisbon: the value of the Spanish vellone Dollar  
was increased from two thousand, to two thousand  
one hundred and seventy five R<sup>es</sup>, when D. Pedro  
and the Government were at Oporto the Spanish  
Dollar was raised to the value of Twelve hundred R<sup>es</sup>.

Know all men by these presents, that we William E. DuBois  
and Charles E. DuBois — acknowledge ourselves held and  
firmly bound to Samuel Moore, Director of the Mint of the United  
States, in the just and full sum of One thousand Dollars, to be paid to the  
said Samuel Moore and his successors; to which payment well and  
truly to be made, we bind ourselves, our Heirs Executors & Administrators  
jointly and severally, firmly by these presents, sealed with our seals,  
dated the Fifth day of February, in the year of our Lord one thousand  
Eight hundred and thirty four. 1834.

Whereas the above bounden William E. DuBois is appointed  
by the said Samuel Moore, Director's Clerk in the said Mint:

Now the Condition of the above Obligation is such, that if the said  
William E. DuBois shall from time to time, and at all times during his  
service in the said Mint, well and truly perform and fulfil the duties  
and services of Director's Clerk in the said Mint, according to  
the rules established therein, and shall well and truly account for  
all Bullion, Coin or other property of the Mint that may be entrusted  
to him, or any ways come to his hand or possession, and in all things  
behave himself in a diligent and faithful manner, then the above  
obligation to be void, otherwise to be and remain in full force and  
virtue.

Sealed & Delivered in presence of us —

Witness to signature of W. E. DuBois:

Adam S. Beuzet

Witnesses to signature of C. E. DuBois

Robert F. DuBois.

Providence Feb<sup>y</sup> 15. 1834.

Dr Lane Moore,

Director of U. S. Mint.

Dear Sir,

Laurens July 15<sup>th</sup> 1834.

We annex Invo. of 72 chests  
of Boyes Blankets to be shipped from Providence to N. Y.  
weighing 10,000 lbs. @ 28. . . \$2800.

Previous to receipt of your last favor we had  
a considerable part of the above packed in Boyes sacks  
containing 111 to 160 <sup>lbs</sup> and as they were very nicely  
& strongly put up we supposed they would meet  
your approbation.

We believe these blankets on examination  
will be found unexceptionable. On receipt of  
them we will thank you to inform us whether  
the manner these are packed, viz. in Boyes  
containing just 100 <sup>lbs</sup> with handles on each, will  
be satisfactory. It will be more convenient  
for us to pack them in this way.

Very Respectfully,

(Your m. O. for S)

Dear Rev Brothers &c

The Hon. W. B. Tacey  
Secretary of the Treasury  
Washington.

Consulate of the United States  
Florence Feb. 15. 1834 -

Sir -

In conformance with the Circular  
letter addressed on the 31<sup>st</sup> August last by  
the Treasury Department to the Consuls,  
I have caused to be made known to the im-  
porters of Merchandise within my District,  
that for the future a Certificate from the  
U. S. Consul is necessary in all invoices, sta-  
ting the true value in Spanish, or United Sta-  
tes silver dollars, as compared with the est-  
ablished coin of the Country in which the  
invoices are made out.

I annex herewith the Statement  
of the value of the coins of Tuscany, to  
make known to the Treasury Department  
their value in relation to Spanish, or  
United States silver dollars & moreover the  
value of the ingots or bars of gold & silver.  
I transmit likewise a set, or full speci-  
men of the coins of Tuscany amounting  
to one hundred twenty one lire, six sous  
four deniers, Tuscan Currency, which has the  
true value in Spanish dollars of Nineteen  
dollars & twelve cents, at the current rate

of six lines & one third for Spanish Dollar,  
which sum I request may be remitted  
to me in any way most agreeable to the  
Treasury Department, having myself no means  
of drawing for so small an amount, having  
no quarterly accounts to make up. I  
will forward another set by a future  
opportunity.

I am respectfully Sir,  
Your most obedient servant  
James Embury

Statement of the Turkish Currency, their current values,  
& intrinsic worth, together with the value of ingots of silver  
& gold.

From the year 1845 to the year 1834, the minting  
of money in Turkey, all current & of equal value, has not  
suffered any change, the stamping of the different coins, re-  
maining the same under different successors, with the  
exception of the effigy of the new sovereign, omitting any  
mention of the coin minted previous to the year 1845, which  
are so varied I dare that they cannot be found even for  
the gratification of the curious.

In the year 1845 was minted the franciscone,  
and the half franciscone, with the effigy of Francis the first  
of Lorena, Emperor of Austria & first Emperor of Turkey, after  
the extinction of the house of Medici, from whom these coins  
derived their name, which they still retain. These coins bear  
also at the present day the effigies of Francis, of Leopold the  
first of Ferdinand the third, of Louis XVIII. Infant of Spain,  
& King of Etruria, & of Leopold the 2<sup>d</sup> present reigning sovereign.

Statement of the Gold Coins of Turkey.

The Supreme valued at forty Turkish Liras £40 -  
The Sequin which is the third part of the Supreme valued  
at thirteen Turkish Liras six sous, eight deniers £13. 6. 8.  
This is the par value of these two gold coins in Turkey which  
are also subject to no fluctuating premium from 5 to 5 1/2  
per cent. In the market of England they cannot be refused  
in payment of bills of exchange which always maintain a  
premium of more than 5 per cent, but this exchange mostly in  
the place as the gold coins mentioned above generally cost  
more than the par value.

Statement of the alloyed current coins in Turkey.  
The Franciscone of pauls 10, or £ 5. 13. 4. all these coins are of the  
two half date of 5 or £ 3. 6. 8. same purity of alloy as the  
the two pauls of 2<sup>d</sup> 2 or £ 1. 6. 8. franciscone's, the same with  
the two of 2<sup>d</sup> 13 or £ 1. in proportion the half franciscone  
the paul of 1<sup>st</sup> 1 or £ 13. 4. having the half weight of the  
the half of 2<sup>d</sup> 3 or £ 10. from the two pauls the fifth  
the half paul of 1<sup>st</sup> 30 or £ 5. 4. and thus on with the remainder  
save the wear of use.

A Roman coin minted by Pope Pius VII. of the Turkish  
purity of the value of three pauls passes in Turkey £

is received in payment for  $\frac{3}{11}$  of a francoscone.  
Copper coins of Tuscany.

The copper coins in Tuscany and those alloyed with silver are but few and used only for detail, payments being made with the silver coin.

The two Castles	$\frac{1}{2}$ of a paul.	Accounts are kept in Tuscany
the two soldi	$\frac{1}{30}$ of detto	in Liree of 20 soldi, the soldo
the Cassia	$\frac{1}{3}$ of detto	of 12 deniers. The francoscone is
the soldo	$\frac{3}{40}$ of detto	worth £ 6.13.4. & fifteen per
The duetto	$\frac{1}{20}$ of detto	centoni make £ 100 —
The quattrini	$\frac{1}{40}$ of detto	

In the year 1823 the Tuscan Government wished to form a new money system by decimals, but it appears it did not take place: at that time the following coins were made.

The gold coin of eight florins which passes without premium for 200 pauli or £ 133 6.8 equal to francoscone 20, pure gold carats 23  $\frac{28}{32}$  or  $\frac{943}{1000}$ , weighs ounce 1. deniers 32  $\frac{3}{4}$  of Tuscany. Mark weight of France ounce 1. deniers 1. Grain 8. Metric weight grammes 33.986, intrinsic value £ 131.10.4. But these coins are no longer current.

Silver coins minted in 1823, which are still the current money.  
The silver florin passes for pauli 2  $\frac{1}{2}$  or £ 1.13.4.  
half florin passes for pauli 1  $\frac{1}{2}$  or £ — 16.8.  
fourth of a florin passes for pauli  $\frac{3}{4}$  or £ — 8.4.  
their purity & weight being the same in proportion with the francoscone.

In the year 1803 a coin was minted with the stamp of the Queen & King of France of £ 3. In the year 1807 another coin with the above mentioned effigies of £ 10.

The ten livres coin is of the purity of 11.12, or 958 thousandths, weighs ounce 1. dit 9. grains 6 of Tuscany, of mark weight of France ounce 1. den. 6. grains 20, metric weight 39.304, intrinsic value £ 9.16.9 of Tuscany, francs 8.26. The five livres coins are of the same purity & 10 in proportion, of 5.12.12 coins but few are current.

Purity of the current money according to the Tuscany weight, the mark weight of France & the Metric weight, together with their intrinsic value in Tuscan money & in French francs.

### The Ruspone

Purity of the gold <sup>of France</sup> Just weight Mark weight <sup>of Tuscany</sup> Net weight <sup>of France</sup>  
 Den 28  $\frac{25}{32}$  equal to 993 three <sup>2165</sup> Den 8 <sup>100</sup> gr 21 Den 8 <sup>100</sup> gr 3 Gram 10.335 £42.3.9 gr 35.44  
 The Sequin is of the same purity & equivalent to one third  
 of the Ruspone -

### The francione

Purity of silver <sup>of France</sup> Just weight Mark of France Net weight <sup>of Tuscany</sup> Into value <sup>of France</sup>  
 11. or 914 thou <sup>2165</sup> Den 33  $\frac{1}{2}$  Den 21.10 Gram 22.300 £6.10.9 gr 5.48  
 It should be observed that there is an allowance of 2 grains in  
 the purity, that is to say 10.22. & then the effective value of  
 the francione is £6.9.9, or francs 5.44. & particularly in the  
 coin of the year 1796 to the year 1834, the francione was equal  
 with the stamp of the King of Corsica of the year 1803, which  
 are to 11, or 914 thousandths, the variation then upon the  
 francione is of about 2 soldi, & four centimes.

The ingots of gold are paid by the Mint of Florence.  
 Tuscan weight Mark of France Net weight <sup>of Tuscany</sup> of France  
 The gold at 24 carats fine 8.14.12 or ounce 8 Gram 244.35 £1001.3.4 gr 870.96  
 Tuscan weight Mark of France Net weight <sup>of Tuscany</sup> of France  
 The silver at 12 carats fine 8.14.12 Gram 244.25 £65.10.4 gr 55.60

As in Tuscany the ingots of gold & silver are regarded  
 as Merchandise & are therefore subject to change of price, but  
 almost always Bankers pay one & half per 100 more than the  
 mint & this for convenience of the Exchange when it is high  
 in the markets from whence the ingots are brought.

The principal trade of gold is made at Leghorn with  
 the gold sands that come from the coast of Africa, they are  
 melted at Leghorn & are sent to the Mint in Florence to be  
 coined, & then they are sent for the most part to Genoa &  
 to France.

The broken gold is generally used for making jewelry  
 & to mint gold coins.

In regard to the ingots of silver there is very little  
 commerce & it is but seldom they are to be found for the  
 silver smiths & for minting money. The silver smiths when  
 the Spanish milled dollars are under par, nine & half  
 they melt them for their use -

S. Moore Esq

New York Feb 22. 1834

Director U. S. Mint

Sir, Since my return to New York, a full sized machine for stamping coins upon the general plan of the model shown you has been put under contract to be delivered the 29<sup>th</sup> of March next, and is in progress being built, the Machinist Mr G. N. Miner of this City warrants the entire and perfect operation of the Machine, its usefulness will therefore be fully tested. The Machine is ordered by a gentleman of this City to send to Mexico.

You having expressed a willingness to send an agent to examine it, in case an experiment should be made, I now write to apprise you of the intention, and to ask you if we may still expect you will send to this City to examine it, as it will be from its size (weighing three tons) inconvenient to send the Machine to Phil<sup>a</sup> for exhibition, besides, if it shall be delivered as promised the 29<sup>th</sup> of March and it proves satisfactory, it is intended to be shipped by the regular packet of the 5<sup>th</sup> of April, & will leave but a limited time for trial & exhibition —

We furthermore wish to Enquire if we can make an arrangement with you to send by the agent a quantity of rolled silver in the plate or planchet sufficient to make trial of the machine, we paying you for the expense and waste of working it over, I have presumed however that you may not have a die of the precise diameter of the kind we want for cutting out planchets, if you have a die it would save us the expense of fitting up a temporary tool for that purpose, the Mexican dollar is precisely  $1\frac{1}{2}$  inches in diameter, the Spanish dollar is some longer, in our case we shall want the planchet a shade less than  $1\frac{1}{2}$  inches in diameter, so as to work freely in a closed collar of an  $1\frac{1}{2}$  inches, as the pieces used in the trial of the machine would be melted over again, it would not be material whether the plate is, or is not, of the exact thickness to make a piece of correct weight, so that it is near the thickness it will answer all the purposes of trying the machine, but the plate should be all of one thickness without regard to the weight of the piece, we should want the metal in the same state of density as used in your mint to give the piece a fair trial, & Mr. Eckfeldt advised to try at first a piece of small diameter, this we

shall do, but we must also prove the machine to be of power sufficient for dollars, and shall be glad to work in it fifty or a hundred pounds;

The present machine is to contain presses for four set of dies, & will provably stamp 200 a 250 a minute, to be supplied with planchets from one tube only in the center of the die shaft and consequently do not stop the machine as shown in the model to supply with planchet, the gearing is all situated below the floor, it is also to work in a closed collar, and in some other respects the machine is different from the model shown you, or rather the machine is put into form and proportion, which was not the case in the model, that only demonstrated the general movement & principles of the machine, it is to be well finished, particularly those parts intended to be exposed to view, complete with a fly wheel &c —

You will recollect that Messrs L. P. Dixon & Brothers of this city are interested in this machine, and should you deem it consistent to send the silver plate upon their order, & so inform me, I would refer you to Mr. Copethwaite Carrier of U. S. Bk, Mr. Mark Richards, or Washington Jackson & Riddle & Co. as to the respectability of their house —

Very respectfully yours Obt. Servt.

W. W. Harvey

August 23<sup>rd</sup> July 1834

Dear Sir

On the other side we hand you the directions given us by our house in Augusta to be observed in making the assays of the Gold Bullion <sup>delivered</sup> you yesterday - as a great portion of it was purchased by them in connexion with others it is quite necessary that each bar in the lot should be assayed by itself, and we shall esteem it a favor if you will when you send over the gold, request your agent procure from the Mint a stamp of each bar in the two lots -

We are

Respectfully yours

J. P. Beers & Co.

Maine & Pic Insurance Bank  
Savannah March 13. 1834

Sir

We have in this section of the  
country a sufficient supply of Silver  
coin of half dollars - but a deficiency  
of smaller coin

The object of this letter is to enquire  
on what terms ten or twenty thousand  
dollars can be obtain'd from the  
Mint say one half in quarters - three eighths  
in dimes and one eighth in half dimes?

Should we import Silver in bars, what  
time and what expense would be required to  
deliver us either ten or twenty thousand dollars  
in coin as above. and what time and what  
expense should <sup>we</sup> make other arrangement for  
funds in Philadelphia.

Sir,

I have your favour of the 22  
instant. Its enclosure is placed to the  
credit of Thomas J. Lee, Cashier Calais  
Bank.

Very respectfully,  
Your obed<sup>t</sup> servant

Chas Sprague  
Cash<sup>r</sup>

Rome, March 29<sup>th</sup> 1834.

Sir

In reply to your Circular of the  
31<sup>st</sup> of August last, I have the honour to send  
herewith duplicates of the List of all the  
Coins, which are legally current in the Roman  
States, and also of a Statement procured from  
the Mint here concerning the weight and  
the value of the Roman Coins. The Roman  
Silver Crown (Scudo) is exactly the same as  
the Spanish or the United States' Silver  
Dollar, and is likewise divided into one hundred  
parts, which are called Bajeros or Cents.  
to the  
Hon. Mr. Taney,  
Secretary of the Treasury of the U. S. of America  
Washington

I also send enclosed in a small wooden  
Box duplicates of all the Roman Coins, of  
which I inclose have a list. The Coins amount  
in all to seven Dollars and sixty Cents, which  
I beg leave to request you will direct to be paid  
to the order of M<sup>r</sup>. Herman Le Roi Newb<sup>o</sup>,  
Attache to the American Legation in Paris,  
who was so kind as to take charge of this letter  
as well as of the Box with the Coins.

I have the honor to remain with  
the greatest respect,

Res,

Your most obedient humble servant

Felix Cicognani

No. Rps. 20<sup>th</sup> April 1834.

Dear Mr. Moore

S<sup>r</sup>

I send with pleasure, to you a copy of the  
Bill & Report, made by myself, in relation to the establishment  
of a pay office &c. - I have omitted, regarding a charge for  
services, as suggested by you in your communication to me, with  
the view, if deniable by the House to do have the Bill amended.

I will feel thankful, to you, for any suggestions  
you may think proper to make - if any thing further  
shall occur to you: - Another suggestion you were good  
enough to make, and which with the views of the Committee, that  
the better plan, to first put into operation the pay office, by  
the employment & superintendence of one individual - but, that  
perhaps the best plan, would be to have it also come in  
by way of amendment if at all.

Dear Sir.

Most respectfully.

Your obt<sup>d</sup> Serv<sup>t</sup>

Henry M. Connor

Treasury Department  
Comptroller's Office.

April 1. 1834.

Sir,

Your account of Ordinary Receipts & Expenditures  
from 1<sup>st</sup> October to 31<sup>st</sup> Decr. 1833, has been adjusted  
at the Treasury, and a balance of \$16,252.77.5 found due  
to the United States from you. —

The balance claimed by you, of Apr. 30	911.56
The balance due from you, of Treasury Statement, is	16,252.77.5
Difference	<u>\$17,173.73.5</u>

Which arises as follows, — Viz

This sum, improperly charged in your account of  
Ordinary Receipts & Expenditures for Decr. 1833  
~~—~~ ~~Expenditures for distributing~~  
Copies being in that quarter and Disallowed.  
Report N<sup>o</sup> 62 757.

750.22.5

The following Warrants issued since the period for which  
your account is rendered, had not yet credited by you. — Viz

N<sup>o</sup> 8815, dated January 13 1834 — 4,820. —

8716 " March 15 " — 12,200. — 17,020. —

Fraction of a Cent rejected, of Agent. N<sup>o</sup> 64, 285 — 1. —

\$17,173.73.5

Amount brought over \$ 17,772.23.5

From the above docket.

This sum, being the amount of Wardent \$3932,  
dated 23 June 1832, improperly credited in your  
Account of Ordinary Receipts for June quarter  
1832, instead of your Account for the distribution  
of Cents 600.

This sum, that charged by you for  
amount of Voucher \$1,778, for the  
Incidental & Contingent Expenses do 600.50.

As above

\$ 17,773.73.5

Respectfully,

*For Anderson*

William Findlay, Esq.,  
Treasurer of the Hunt.

Nullifera Retreat 12<sup>th</sup>  
April 1834

My dear Sir

I take the liberty of sending  
you by my friend Sam<sup>l</sup> G. Wootton  
Esq<sup>r</sup> two <sup>specimens</sup> ~~pieces~~ of Ore believed  
to contain Silver - Will you  
do me the favor to ascertain  
what kind of Mineral they are  
and if Silver what quantity a  
pound would yield &c. and whether  
such Ore would be worth  
working? - There is an abundance  
of the Mineral at a certain spot  
known only by a very few  
persons & is a secret communica-  
-ted alone to me with an offer of  
an interest - provided it is worth

any thing. So be candid I have but  
little faith but I promised the  
persons whose friendship for me in-  
duced them to offer me an interest  
that I would send the specimens of  
one on to you where we could  
obtain correct information as to  
its value &c. The trouble thus  
given you I know requires an  
apology - but I shall presume so far  
upon our acquaintance & friendship  
& upon your disposition to <sup>give</sup> any  
aid in y<sup>r</sup> power to the development  
of the Mineral resources of our Coun-  
try as to excuse troubling you upon  
this occasion & promise that should  
it turn out a rich mine to give  
you a more tangible demonstration  
of my acknowledgements than mere

words.

(Worcester)  
My young friend to whom  
this will introduce you will proba-  
-bly spend a day or two in y<sup>r</sup>  
City. Should he do so any attention  
you may have it in y<sup>r</sup> power to  
show him shall be thankfully  
acknowledged by your  
friend & I & know

Saml Carson

Doctr Moore. Director  
U. S. Min. Philad<sup>a</sup>

Bank of America April 14. 1834

Sir

I shall forward from the Bank tomorrow morning \$144,762. One hundred & thirty four thousand seven hundred & sixty two Dollars in Mexican Dollars to be delivered to you at the mint for Receipts for account of the Bank, and I request of you the favor to cause the Receipts to be made at as early a day as the Regulations of the Mint will allow - The Specie is contained in 45 Trays as per Statement annexed, the 30 Trays numbered 1 @ 30 included of \$5000 each making \$90000 is a particular parcel, the Value of which I request of you the favor to furnish me a separate account of, and which I wish coined into half Dollars, the Remainder say \$44,762 you will please have coined into quarters, Dimes & half Dimes -

As American Coin is scarce in the City and shall be pleased to receive the same as early

as practicable - My Son who will have  
 Charge of the Office will thank you they  
 and I will thank you to give him a line  
 acknowledging the Recd. of the Office, and  
 stating the time when we may expect to  
 receive the Coin in Return - the half Collar  
 of the Office will be ready some time before  
 the smaller Coin - the Certificate of Weight  
 & Value you will please enclose and forward  
 to me by Mail -

I am very respectfully  
 Sir your Obedient Servant  
 Geo. Newbold Treas.

Extract of a letter from A. Sanouille  
N. I. Consul Santa Martha, Col. to the  
Secretary of State, dated April 16. 1834.

"I have the honor to transmit you also by  
this opportunity specimens of the silver coins of  
the country; the four pieces wrapped in a paper  
labelled "Columbian Money," are, a dollar piece,  
a 4th, 8th, & 16th, thereof. We have no means of  
ascertaining their intrinsic worth. I transmit  
also three samples labelled "macaquino money"  
They are 4th, 8th, & 16th, of a dollar but their  
weight vary extremely. Those I sent are of the  
middle size. This coin is also a legal tender:  
the gold coin is well known, it is the doubloon  
and its parts, the relative value of this coin to  
the silver pieces vary extremely, & the fluctuations  
have of late been sudden and violent from  
22 p<sup>cts</sup>. to 3. Now gold bears 6 1/4 p<sup>cts</sup>. premium  
(a doubloon is equal to \$17) and is on the rise.  
Spanish & American Dollars are also sold a  
fraction higher than doubloons taking of course  
this coin at \$16. "

United States

Philadelphia 26 Sept. 1834

I enclose herewith the certificate  
for the large portion of your late deposits of \$1000.  
But for the smaller portion which you drew  
in small coins, it is your honor I understood  
to claim in the case of the last 1/2 of the fund  
- it is ~~therefore~~ <sup>therefore</sup> ~~the~~ <sup>the</sup> ~~amount~~ <sup>amount</sup> ~~you~~  
~~are~~ <sup>are</sup> ~~to~~ <sup>to</sup> ~~be~~ <sup>be</sup> ~~paid~~ <sup>paid</sup> ~~to~~ <sup>to</sup> ~~you~~ <sup>you</sup>  
~~are~~ <sup>are</sup> ~~to~~ <sup>to</sup> ~~be~~ <sup>be</sup> ~~paid~~ <sup>paid</sup> ~~to~~ <sup>to</sup> ~~you~~ <sup>you</sup>

You may send on Tuesday for  
two thousand and dollars which will ~~be~~  
~~I shall~~ <sup>I shall</sup> ~~be~~ <sup>be</sup> ~~paid~~ <sup>paid</sup> ~~to~~ <sup>to</sup> ~~you~~ <sup>you</sup>  
comprising  
\$2000 for the \$2500 disburse, \$2500 & disburse.  
of Phoebe Anthony Mr Lewis to  
~~you~~ <sup>you</sup> ~~be~~ <sup>be</sup> ~~paid~~ <sup>paid</sup> ~~to~~ <sup>to</sup> ~~you~~ <sup>you</sup>  
on the certificate in Mr. on account for the  
sum of \$1000 paying the small charge for  
bags and postage -

I  
in writing the ~~last~~ <sup>second</sup> ~~letter~~ <sup>divine</sup> of your  
Report the Key no 42 was found defective  
~~in weight~~ falling of 40. 15 cts below  
the average. This ~~number~~ <sup>indicates</sup> a deficiency  
of about 100 dollars - There was no  
appearance of impurity ~~in the metal~~ <sup>to the harbor</sup> - but  
among other ~~things~~ <sup>things</sup> perfectly ~~under~~ <sup>under</sup> understood -

Very respectfully

Yours &c

Wm. Moore

Dear Sir

We annex Invo. of  
planchets shipped on the 20<sup>th</sup> inst, for Schom-  
Margaret Ann from this place.

A part of this parcel is put into boxes - having  
been <sup>hitherto</sup> previous to the receipt of your directions to  
have them put in casks, which we understood  
from one of the foremen at the mint would not  
be objected to. We shall hereafter send  
them in casks weighing 300<sup>lbs</sup> each.

We are

Very Respectfully,  
(Yours Obedient)  
Brook & Mother & Co

Bank of Montreal April 19 1834

Sam<sup>l</sup> M<sup>r</sup> Esq  
Director of the Mint  
Sir

Your favor of the 18<sup>th</sup>

is received & being one of the times when the Coin will be ready for delivery in return for the Silver lately deposited with you by this Bank, and I beg you Sir to accept my thanks for the arrangements that you have made to facilitate the delivery at an earlier day than we could otherwise have received it -

Agreeable to the suggestion in your letter, I will place the Certificate for that portion of the deposit for which a small Coin is requested, in the hands of Mr. C. Lewis Esq. Cashier of the Bank & will request him to receive the amount at such time or times as you may be prepared to deliver it, and he will give the receipt for it accordingly -

As soon as one half of the half dollar shall be ready, I request of you the favor to advise

Mr. Thompson I will send for them immediately.

I will thank you to have the Senate Committee  
first enclosed in bags before it is put up in the  
bags agreeable to your proposition, the expense of  
which will be charged for.

I am very respectfully

Yours Obt. Servant

Wm. A. B. T. T. T.

Samuel Lloyd Esq  
Director of the  
Metallurgical  
Society

I am very pleased to deliver  
to Mr. D. Lewis Esq. Cashier the Mint Certificate for  
the Silver deposited by the Bank on the 18. Inst.  
amounting to about \$44,000 and for which Samuel  
Coin was Register, and you will please deliver  
to Mr. Lewis the Coin and take his Receipt for  
the same on account of the Bank.

I am very respectfully  
Yours obt. Servant  
Jas. K. Pollock Treasr.

New York April 20. 1850

Doctor Sam<sup>l</sup>. Moore

W. S. Minst. Philadelphia

Dear Sir,

You have annexed a receipt  
from the Union Transportation Line for a Box to  
you a day, containing twenty pieces of Silver Bullion  
which you will please have assayed and send me  
the certificate for the value. The 10 pieces marked  
with 11 you will please have assayed as Silver  
Containing Gold - the 10 pieces of which are marked 11 & 12  
1, 2, 3, 4, 5, 6, 7, 8, 9, 10 - for as represented as nearly pure Silver,  
and we are rejoiced by our Mexican Correspondents to  
furnish a separate account of the different brands  
with which we should like to comply as far as may  
be practicable. We have covered the Bullion  
by Insurance as you will see by the receipt, and  
paid all expenses for it to be delivered at the Market.

We are Dear Sir

Very respectfully  
Yours &c. &c.  
Richard Taylor

Dear Sir,

Washington 17 May 1834

The amendment to which you refer was not as far as I  
recollect proposed either in the Committee or in the House, nor  
have I before heard of it. - I send you <sup>herewith</sup> of the Bill & the amend-  
ments proposed in Committee. Those at the end of the Bill were  
all rejected in Committee, & all but one or two of them rejected in  
the House also. Mr White is here, & I think was so during the  
discussion in the Bill. - I will make it a point to hand your  
letter to the chairman of the Finance Committee of the Senate.

Very respectfully

Yours obed. servt.

Wm: B. Smith

Saml Moore Esq

P.S. The Amendment not having been proposed in Committee, could not  
by the Rules of the House, be proposed in the House.

Treasury Department  
May 20<sup>th</sup> 1824

Sir,

Information has been received at this Department that there is much delay in procuring at the mint American silver coins in exchange for foreign. The delay is not however imputed to any neglect on your part - And the object of this letter is to enquire whether any arrangements can be made by which the American silver coins can be more speedily provided for the Banks and individuals who may desire to obtain them,

Very respectfully  
Your obt. Serv<sup>t</sup>

Wm. B. Ewing  
Secy of the Treasury

Sam<sup>l</sup>. Moore Esq  
Director of the Mint  
Philadelphia
